East End Capital is a fully integrated real estate investment firm. East End targets investments in markets driven by technology and content creation, healthcare, venture capital investment and compelling demographic trends. East End adds value throughout the investment cycle by applying proactive asset and property management, construction expertise and transparent governance.

East End was founded by Jonathon Yormak and David Peretz and is today managed by a team of seasoned professionals.

East End Studios, an affiliate of East End Capital WC, owns, operates, and develops qualified motion picture and television production facilities. East End offers a broad range of production and related media support services and licenses state-of-the-art production facilities and lighting equipment to the national television, film, and music production industry.

East End Studios professionals have over 20 years of TV/Film production and studio management experience across all types of studio facilities in the United States. The company has many projects in various stages of development in Los Angeles, namely, a 90,000 SF production studio and office facility in Glendale, a 421,000 SF studio facility in Griffin Park and another 240,000 SF production facility in Boyle Heights.

East End maintains offices in NYC and LA.

More information on the Company and its founders could be found at its websites: https://www.eastendstudios.com/ and www.eastendcap.com/

E. PROPOSED PROJECT ACTIVITIES

Describe the proposed Project, including its purpose and Project Location, in the text box below. Refer to the example below.

East End Studios is seeking NYCIDA incentives for its project to construct, furnish and equip a 240,000 sf studio facility on a 110,611 sf parcel of land located at 48-02 48th Avenue, Queens, NY. East End will demolish the existing 143,600 SF dilapidated and disused warehouse facility on the 2.5-acre site in Sunnyside, Queens and construct a state-of-the art, best-in-class full-service multimedia motion picture production studio ("The Project").

The facility will be owned by the applicant, a special purpose entity controlled by East End Studios. The total cost is approximately \$260M, including an acquisition costs of \$41.7M and development costs of about \$219M.

The total usable square footage of the Project, 240,000 SF, includes pre-production space, production offices, studios, state-of-the art postproduction facilities, roof terraces and dedicated loading berths for optimal circulation. The premises will include 90,000 SF of mill and support structure including office space, conference and screening rooms, green rooms, shop and production support, storage, commissary, and kitchen and catering facilities.

The property will have about 80,000 SF of stage space and a 20,000 SF rooftop flex studio space with thirty feet ceilings. The ground floor stage space will consist of three full size sound stages ranging from 20,000 SF to 30,000 SF. All the soundstages will be sixty feet high with at least fifty feet clearance to the grid. The fifth-floor multi-purpose flex space can easily be adapted into a VFXJ animation production space, which is currently in short supply in New York City.

The Project will also provide parking for 225 cars and large trucks through a below grade parking garage with an entrance along 48th Avenue. Also included in the garage is storage space for 35 bikes

The new 240,000 SF Level 2 studio and related ancillary space is vital to meet exploding demand for content creation and revitalize a stranded industrial asset into a modern, productive, and aesthetic studio facility.

The site is located within census tract 36081023500, with AMI of 63.6% and poverty rate of 24.5%. The project will offer significant community benefits, follow stringent energy efficiency measures as outlined in Local Law 97 to minimize its carbon footprint, and meet critical NYCIDA policy objectives.

The project will create about 700 full and part time jobs (which includes 17 jobs by the applicant) and 300 construction jobs. The anticipated closing date is October of 2022. The Project is anticipated to be completed in October 2024, following a two-year construction period.

Example: [Applicant Name] ("Applicant") is a [describe general business activity, such as food processor, real estate developer, plastics manufacturer, etc.]. I. EMPLOYMENT INFORMATION

The following information will be used as part of the Agency's calculation of the Project's benefit to the City, and as a basis for comparison with the employment information that Applicant will be required to report on an annual basis for the term of the Project Agreement (as defined in the Policies and Instructions).

1. Job Creation Schedule for the Applicant

For all responses in the table below, part-time ("PT") employees are defined as those working between 17.5 and 35 hours per week on average, and full-time ("FT") employees are defined as those working 35 hours or more per week. Hourly wages in Columns E & F should represent the pay rate and are exclusive of overtime. For salaried employees, divide the annual salary by 1,820 working hours per year to calculate an hourly wage. Information included in Column C below will be used to determine eligibility for participation in the HireNYC Program. For program information, see Additional Obligations document. If eligible for the HireNYC Program participation, NYCEDC will provide additional details.

CERTIFICATION

I, the undersigned officer/member/partner of Applicant, on behalf of Applicant and its Affiliates, hereby request, represent, certify, understand, acknowledge and agree as follows:

I request that this Application, together with all materials and data submitted in support of this Application (collectively, these "Application Materials"), be submitted for review to the Agency's Board of Directors (the "Board"), in order to obtain from the Board an expression of intent to provide the benefits requested herein for the Project.

I certify that I have the authority to sign these Application Materials on behalf of, and to bind, Applicant and its Affiliates.

I certify under penalty of perjury to the best of my knowledge and belief, after due investigation, that the information contained in these Application Materials is accurate, true and complete and does not contain a misstatement of a material fact or omit to state a material fact necessary to make the statements contained herein not misleading. I understand that an intentional misstatement of fact, or, whether intentional or not, a material misstatement of fact, or the providing of materially misleading information, or the omission of a material fact, may cause the Board to reject the request made in the Application Materials. I understand that the Agency will rely on the information contained within these Application Materials in producing and publishing a public notice and convening a public hearing. If any information in these Application Materials is found to be incorrect, Applicant may have to provide new information and a new public notice and public hearing may be required. If a new public notice and public hearing is required, they will be at Applicant's expense.

I acknowledge that the submission of any knowingly false or knowingly misleading information may lead to the immediate termination of any financial assistance and the reimbursement of an amount equal to all or part of any tax exemptions claimed by reason of Agency involvement in the project.

I understand the following: that Applicant and Principals will be subject to a background check and actual or proposed subtenants may be subject to a background check, and if such background check performed by the Agency with respect to Applicant or any Affiliates reveals negative information, Applicant consents to any actions that the Agency or NYCEDC may take to investigate and verify such information; that the Agency may be required under SEQRA to make a determination as to the Project's environmental impact and that in the event the Agency determines that the Project will have an environmental impact, Applicant will be required to prepare, at its own expense, an environmental impact statement; that the decision of the Board to approve or to reject the request made in the Application Materials is a discretionary decision; that no Bonds may be issued (if Bonds are being requested) unless such Bonds are approved by the Mayor of the City; that under the New York State Freedom of Information Law ("FOIL"), the Agency may be required to disclose the Application Materials and the information contained therein (see the Disclosure Policy section of the Polices and Instructions document provided to Applicant and signed by Applicant on or about the date hereof (the "Policies and Instructions")); and that Applicant shall be entirely responsible and liable for the fees referred to in these Application Materials.

I further understand and agree as follows:

That notwithstanding submission of this Application, the Agency shall be under no obligation to present Applicant's proposed Project to the Board for approval. If the Agency presents Applicant's proposed Project to the Board for approval, the Agency does not guaranty that such approval will be obtained. If upon presenting Applicant's proposed Project to the Board for approval the Agency obtains such approval shall not constitute a guaranty from the Agency to Applicant that the Project transaction will close.

That preparation of this Application and any other actions taken in connection with the proposed Project shall be entirely at Applicant's sole cost and expense. Under all circumstances, the Application Fee is non-refundable, including but not limited to the circumstance where the Agency decides, in its sole discretion, to not present Applicant's proposed project to the Board for Approval.

That each of Applicant and each of its Affiliates (collectively, the "Indemnitors") hereby releases the Agency and NYCEDC and their respective directors, officers, employees and agents (collectively, the "Indemnitees") from and against any and all claims that any Indemnitor has or could assert and which arise out of, or are related to, any Application Materials, any actions taken in connection therewith or any other actions taken in connection with the proposed Project (collectively, the "Actions"). Each Indemnitor hereby indemnifies and holds harmless each of the Indemnitees from and against any and all claims and damages brought or asserted by third parties, including reasonable attorneys' fees, arising from or in connection with the Actions. As referred to herein, "third parties" shall include, but shall not be limited to. Affiliates.

That in the event the Agency discloses the Application Materials in response to a request made pursuant to FOIL, Applicant hereby authorizes the Agency to make such disclosure and hereby releases the Agency from any claim or action that Applicant may have or might bring against the Agency, their directors, officers, agents, employees and attorneys, by reason of such disclosure; and that Applicant agrees to defend, indemnify and hold the Agency and the NYCEDC and their respective directors, officers, agents, employees and attorneys harmless (including without limitation for the cost of reasonable attorneys' fees) against claims arising out of such disclosure as such claims may be made by any party including Applicant, Affiliate, Owner or Principal, or by the officers, directors, employees and agents thereof.

That capitalized terms used but not defined in this Application have the respective meanings specified in the Policies and Instructions.

I acknowledge and agree that the Agency reserves its right in its sole and absolute discretion to request additional information, waive any requirements set forth herein, and/or amend the form of this Application, to the full extent permitted by applicable law.

Part 2 - Impact Assessment. The Lead Agency is responsible for the completion of Part 2. Answer all of the following questions in Part 2 using the information contained in Part 1 and other materials submitted by the project sponsor or otherwise available to the reviewer. When answering the questions the reviewer should be guided by the concept "Have my responses been reasonable considering the scale and context of the proposed action?"

		No, or small impact may occur	Moderate to large impact may occur
1.	Will the proposed action create a material conflict with an adopted land use plan or zoning regulations?	x	
2.	Will the proposed action result in a change in the use or intensity of use of land?	X	
3.	Will the proposed action impair the character or quality of the existing community?	x	
4.	Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)?	x	
5.	Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway?	x	
6.	Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities?	x	
7.	Will the proposed action impact existing: a. public / private water supplies?	X	
	b. public / private wastewater treatment utilities?	X	
8.	Will the proposed action impair the character or quality of important historic, archaeological, architectural or aesthetic resources?	x	
9.	Will the proposed action result in an adverse change to natural resources (e.g., wetlands, waterbodies, groundwater, air quality, flora and fauna)?	x	

	No, or small impact may occur	Moderate to large impact may occur
10. Will the proposed action result in an increase in the potential for erosion, flooding or drainage problems?	X	
11. Will the proposed action create a hazard to environmental resources or human health?	X	

Part 3 - Determination of significance. The Lead Agency is responsible for the completion of Part 3. For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required. Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.
