The Management and the Board of Directors
New York City Industrial Development Agency

Report on the Audit of the Schedule of Investments

Opinion

We have audited the Schedule of Investments of the New York City Industrial Development Agency (the Agency), a component unit of the City of New York, as of June 30, 2022 and 2021, and the related notes (the schedule).

In our opinion, the accompanying schedule presents fairly, in all material respects, the investments of the Agency at June 30, 2022 and 2021 in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Schedule section of our report. We are required to be independent of the Agency, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Schedule

Management is responsible for the preparation and fair presentation of the schedule in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the schedule that is free of material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Audit of the Schedule

Our objectives are to obtain reasonable assurance about whether the schedule as a whole is free of material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the schedule.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the schedule, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the schedule.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Agency's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the schedule.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Agency's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Report on Financial Statements as of June 30, 2022 and 2021

We have audited, in accordance with GAAS and *Government Auditing Standards*, the financial statements of the Agency as of and for the years ended June 30, 2022 and 2021, and our report thereon, dated September 29, 2022, expressed an unmodified opinion on those financial statements.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we also have issued our report dated September 29, 2022, on our consideration of the Agency's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters with respect to the schedule. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Agency's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Agency's internal control over financial reporting and compliance with respect to the schedule.

New York City Industrial Development Agency
(A Component Unit of the City of New York)

Notes to Schedule of Investments

June 30, 2022

1. Background and Organization

The New York City Industrial Development Agency (IDA or the Agency), a component unit of the City of New York (the City) for financial reporting purposes of the City, is a public benefit corporation of the State of New York (the State). IDA was established in 1974 to actively promote, retain, attract, encourage and develop an economically sound commerce and industry base to prevent unemployment and economic deterioration in the City.

The Agency is governed by a Board of Directors, which establishes official policies and reviews and approves applications for financial assistance. Its membership is prescribed by statute and includes a public official and mayoral appointees. Five of the mayoral appointees are appointed by the Mayor after nominations by the City's five Borough Presidents.

To support the activities of the Board of Directors, the Agency annually enters into a contract with the New York City Economic Development Corporation (NYCEDC), a not-for-profit corporation and a component unit of the City, organized to administer economic development programs which foster business expansion in the City. Under the terms set forth in the contract between NYCEDC and IDA, NYCEDC is to provide IDA with all of the professional, administrative, and technical assistance it needs to accomplish its objectives.

The Agency assists industrial and commercial organizations primarily through "straight lease" transactional structures. The straight lease provides tax benefits to the participating organizations (the Project Companies) to incentivize the acquisition and capital improvement of facilities that they own or occupy. The Agency may also assist Project Companies with long-term, low-cost financing for capital assets through a financing transaction (the Financing Transaction), which includes the issuance of double and triple tax-exempt private activity bonds (PABs). However, apart from the issuance of bonds to refund governmental bonds, the Agency has chosen not to issue new bonds. The Project Companies, in addition to satisfying legal requirements under the Agency's governing laws, must meet certain economic development criteria. In addition to the issuance of tax-exempt and taxable bonds for certain transactions, the Agency may provide one or more of the following tax benefits: partial exemption from mortgage recording tax; payments in lieu of real property taxes (PILOT) that are less than full taxes; and exemption from City and State sales and use taxes as applied to construction materials and machinery and equipment.

Notes to Schedule of Investments (continued)

1. Background and Organization (continued)

In the past, the Agency issued PABs. The PABs are special non-recourse conduit debt obligations of the Agency which are payable solely from the rents and revenues provided for in the lease (Financing Lease) to the Project Company. The PABs are secured by a collateral interest in the Financing Lease, the Project Company's project property and, in certain circumstances, by guarantees from the beneficiary's principals or affiliates or other forms of additional security. Both the PABs and certain provisions of the Financing Lease are administered by an independent bond trustee appointed by the Agency.

When the Agency issues PABs, the proceeds of the PAB financing are conveyed to an independent bond trustee for disbursement to the Project Company. The Project Company leases the project or other collateral to the Agency for a nominal sum and the Agency, in turn, leases the property or other collateral back to the Project Company for a period concurrent with the maturity of the related PAB or the term of the tax benefits. Rental payments are calculated to be sufficient to meet the debt service obligation on the PAB. The Financing Lease includes a termination option, which allows the Project Company to cancel the Financing Lease for a nominal sum after satisfaction of all terms thereof.

Due to the fact that: (1) the PABs are non-recourse conduit debt obligations to the Agency, (2) the Agency assigns its interest in the Financing Lease as collateral, and (3) the Agency has no substantive obligations under the Financing Lease (other than to convey back the project property at the end of the PAB term), the Agency has, in effect, none of the risks and rewards of the Financing Lease and related PAB financing. Accordingly, with the exception of certain fees derived from the Financing Transaction, the Financing Transaction itself is given no accounting recognition in the accompanying financial statements.

In addition to PAB financing, the Agency also issued Tax-Exempt PILOT Revenue Bonds, Taxable Rental Revenue Bonds, Taxable Installment Purchase Bonds and Taxable Lease Revenue Bonds in connection with the construction of the new Yankee Stadium and Citi Field (the Stadia Projects). Yankee Stadium, LLC, a Delaware limited liability company, and Queens Ballpark, LLC, a New York limited liability company, undertook the design, development, acquisition, and construction of the Stadia Projects. The Taxable Bonds are special limited obligations of the Agency and are payable solely from revenues derived from a Lease Agreement with Yankee Stadium, LLC and a Lease Agreement and Installment Sales Agreement with Queens Ballpark Company, LLC.

Notes to Schedule of Investments (continued)

2. Summary of Significant Accounting Policies

Investments

Investments held by IDA are measured at fair value.

3. Investments

As of June 30, 2022 and 2021, the Agency had the following unrestricted investments. Investment maturities are shown for June 30, 2022, only (dollars in thousands).

	Fair Value		2022	
			Investment Maturities (in Years)	
	2022	2021	Less Than 1	Greater than 1
Money Market Funds	\$ 10	\$ 231	\$ 10	\$ –
Federal Home Loan Bank Notes	11,215	–	5,732	5,483
Federal Farm Credit Bank Notes	13,600	13,729	10,463	3,137
Certificates of Deposit (over 90 days)	101	101	101	–
Total	\$ 24,926	\$ 14,061	\$ 16,306	\$ 8,620

Fair Value Measurement – The fair value hierarchy categorizes the inputs to valuation techniques used to measure fair value into these levels. Level 1 inputs are quoted prices in active markets for identical assets, Level 2 inputs are significant other observable inputs and Level 3 inputs are significant unobservable inputs.

Money market funds, categorized as Level 1 inputs, are valued at the unadjusted prices that are quoted in active markets for identical assets. U.S. Treasury and U.S. Agency securities, categorized as Level 2, are valued on models using observable inputs. Certificates of deposit are valued at cost.

IDA’s investment policy permits the Agency to invest in obligations of the United States, where the payment of principal and interest is guaranteed, or in obligations guaranteed by agencies of the United States. Other investments include certificates of deposit. All investments are either insured or registered and held by the Agency or its agent in the Agency’s name.

New York City Industrial Development Agency
(A Component Unit of the City of New York)

Notes to Schedule of Investments (continued)

3. Investments (continued)

Interest Rate Risk: The Agency has a formal investment policy, which limits investment maturities to a maximum of two years from the date of purchase as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk: It is the Agency's policy to limit its investments in debt securities to obligations of the United States and its agencies, and obligations of the State. As of June 30, 2022, the Agency's investments in Federal Home Loan Bank and Federal Farm Credit Bank were rated AA+ by Standard & Poor's, Aaa by Moody's Investors Service, Inc. and AAA by Fitch Ratings.

Custodial Credit Risk: For investments, custodial credit risk is the risk that in the event of the failure of the counterparty, the Agency will not be able to recover the value of its investments that are in the possession of the outside party. Investment securities are exposed to custodial credit risk if the securities are uninsured or not registered in the name of the Agency and are held by either the counterparty or the counterparty's trust department or agent, but not in the Agency's name.

The Agency manages this credit risk by limiting its custodial exposure to highly rated institutions and/or requiring high quality collateral to be held by the counterparty in the name of the Agency.

Concentration of Credit Risk: The Agency places no limit on the amount the Agency may invest in any United States government backed securities. The following table shows investments that represent 5% or more of total investments (dollars in thousands):

Issuer	Dollar Amount and Percentage of Total Investments					
	June 30, 2022		June 30, 2021			
Federal Home Loan Bank	\$	11,215	44.99%	\$	—	—%
Federal Farm Credit Bank		13,600	54.56	13,729	97.64	

Report of Independent Auditors on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of the Schedule of Investments Performed in Accordance with *Government Auditing Standards*

The Management and the Board of Directors
New York City Industrial Development Agency

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*), the Schedule of Investments (the schedule) of the New York City Industrial Development Agency (the Agency), a component unit of the City of New York, as of June 30, 2022, and the related notes to the schedule, and have issued our report thereon dated September 29, 2022.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the schedule, we considered the Agency's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the schedule, but not for the purpose of expressing an opinion on the effectiveness of the Agency's internal control. Accordingly, we do not express an opinion on the effectiveness of the Agency's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's schedule will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Agency’s schedule is free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and the New York State Comptroller investment guideline requirements as presented in Section 201.3(c) of the *Accounting, Reporting and Supervision Requirements for Public Authorities*, noncompliance with which could have a direct and material effect on the schedule. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity’s internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity’s internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
