## E. PROPOSED PROJECT ACTIVITIES

Describe the proposed Project, including its purpose and Project Location, in the text box below. Refer to the example below.

East End Studios is seeking NYCIDA incentives for its project to construct, furnish and equip a 240,000 sf studio facility on a 110,611 sf parcel of land located at 48-02 48th Avenue, Queens, NY. East End will demolish the existing 143,600 SF dilapidated and disused warehouse facility on the 2.5-acre site in Sunnyside, Queens and construct a state-of-the art, best-in-class full-service multimedia motion picture production studio ("The Project").

The facility will be owned by the applicant, a special purpose entity controlled by East End Studios. The total cost is approximately [REDACTED], including an acquisition costs of [REDACTED] and development costs of about [REDACTED].

The total usable square footage of the Project, 240,000 SF, includes pre-production space, production offices, studios, state-of-the art postproduction facilities, roof terraces and dedicated loading berths for optimal circulation. The premises will include 90,000 SF of mill and support structure including office space, conference and screening rooms, green rooms, shop and production support, storage, commissary, and kitchen and catering facilities.

The property will have about 80,000 SF of stage space and a 20,000 SF rooftop flex studio space with thirty feet ceilings. The ground floor stage space will consist of three full size sound stages ranging from 20,000 SF to 30,000 SF. All the soundstages will be sixty feet high with at least fifty feet clearance to the grid. The fifth-floor multi-purpose flex space can easily be adapted into a VFXJ animation production space, which is currently in short supply in New York City.

The Project will also provide parking for 225 cars and large trucks through a below grade parking garage with an entrance along 48th Avenue. Also included in the garage is storage space for 35 bikes

The new 240,000 SF Level 2 studio and related ancillary space is vital to meet exploding demand for content creation and revitalize a stranded industrial asset into a modern, productive, and aesthetic studio facility.

The site is located within census tract 36081023500, with AMI of 63.6% and poverty rate of 24.5%. The project will offer significant community benefits, follow stringent energy efficiency measures as outlined in Local Law 97 to minimize its carbon footprint, and meet critical NYCIDA policy objectives.

The project will create about 700 full and part time jobs (which includes 17 jobs by the applicant) and 300 construction jobs. The anticipated closing date is October of 2022. The Project is anticipated to be completed in October 2024, following a two-year construction period.
