Name of Action or Project: 460 Park Repositioning Project		
Project Location (describe, and attach a general location map): 460 Park Avenue, New York, NY, 10022		
Brief Description of Proposed Action (include purpose or need): Hahn Kook Center (U.S.A.) Inc. ("HKC") seeks an M-Core Program inducement to facilitate the repositioning of the 22-story office building located at 460 Park Avenue, a 13,556 square foot parcel of land that occupies the northwest corner of Park Avenue and East 57th Street. The project includes a 9,307 square foot expansion of the existing 282,801 gross square foot building (3.2%), new state-of-the-art mechanicals and top-flight amenities for today's office tenants. Work on the \$200 million construction project will begin on 1/1/2026 and be completed in 24 months. An additional discretionary approval will be necessary to facilitate the project. Construction of the existing building was facilitated by a variance (287-53-BZ) issued by the NYC Eoard of Standards & Appeals ("BSA") in 1953, which allowed the then applicable loading berth requirements of the NYC Zoning Resolution ("ZR") to be waived. The project will also require HKC to seek a letter of no objection from the BSA to maintain the current loading berth waiver, or alternatively a waiver from the Department of Buildings Commissioner pursuant to ZR Sections 81-44 and 13-33. Each of the proposed actions qualify as Type II actions pursuant to Sections 617.5(c)(1), (2), (18) and (25) of the NYS Environmental Conservation Law.
