The parent company of the Applicant, NineDot Energy, LLC (NineDot) is a leading community-scale, clean energy developer with a growing portfolio of projects across a range of technologies. NineDot is creating innovative energy solutions that support a more resilient electric grid, deliver economic savings, and reduce carbon emissions. Currently, NineDot's focus is on developing battery energy storage systems in the New York City metropolitan area. We plan to develop, build and operate more than 400 megawatts of clean energy systems by 2026 that will strengthen the local power grid infrastructure and provide clean, reliable, and resilient power to tens of thousands of New York homes and businesses. We strongly support New York State's mission to achieve 100% clean energy by 2035 with a goal of 6,000 megawatts of energy storage deployment by 2030, aligned with New York City's target of 500MW installed by 2025.

NineDot, formerly doing business as CertainSolar, Inc, was founded in 2015 by clean energy financing experts and is based out of the Urban Future Lab, New York City's premiere clean-tech incubator run by New York University in collaboration with the Economic Development Corporation. NineDot has more than 70 full-time employees..

E. PROPOSED PROJECT ACTIVITIES

Describe the proposed Project, including its purpose and Project Location, in the text box below. Refer to the example below.

Seneca Lake Clean Energy LLC ("Applicant") is a wholly owned subsidiary of NineDot Energy, LLC ("NineDot"), a community distributed energy developer. Applicant is seeking tax benefits in connection with the construction of battery energy storage systems ("BESS") that will have an estimated capacity of 8.0 MW along with two solar arrays each of approximately 20 kW capacity (the "Project"). The Project will be located within Lot 46 within Block 4555 in the Borough of the Bronx, known by the address of 2940 Boston Road (the "Project Site"). The Project Site is currently under contract by Applicant to lease, with a due diligence period lasting until April 2025, during which Applicant will study the financial feasibility of the Project. Pursuant to the lease agreement, Applicant has sole discretion to terminate the contract in full during or at the conclusion of the due diligence period, or elect to proceed with the full 20+ year term of the lease.

The Project is a "front-of-the-meter" storage solution, meaning it will be interconnected with the electrical grid following capital improvements funded by Applicant and made in collaboration with Consolidated Edison, Inc. ("ConEd"). Following completion, the Project will provide greater grid resiliency, lower utility costs, and a reduced reliance on high-emission, high-cost "peaker" plants during summer hours when grid demand exceeds available capacity. The batteries themselves will comprise approximately 1,400 square feet (sf), in addition to auxiliary equipment and structures, while the two solar arrays to be located on the roof of the high-tension vaults will comprise approximately 1,000 sf. The per-day energy capacity will be 32.0 MWh for the BESS and 120 kWh for the solar systems.

NineDot has a proven track record of developing BESS in New York City with minimal community impacts and on expedited timelines. NineDot now operates multiple BESS sites in Staten Island and the Bronx. At our 3.0 MW BESS in the northeast Bronx adjacent to a mixed-use neighborhood, NineDot engaged with local elected officials and community leaders, and built a relationship with the nearby Bronx Charter School for Better Learning, with regular workshops for students to learn about climate change and energy, as well as a collaborative arts project wherein students and a local artist designed a mural which covers the fencing for the site. Here, NineDot plans similar engagement activities with the surrounding community.

The total cost of the project is estimated to be approximately \$25.66M. The sum includes construction costs of approximately \$10M, mostly in hard costs; approximately \$14.7M in equipment (including batteries); and other costs which include those for NYCIDA closing fees, insurance, and initial operations and maintenance before the battery is fully online. An NYCIDA sales tax exemption would yield approximately \$1.81M in sales tax savings before the Project Fee.

Applicant's capital stack includes 72% financing of its interconnection costs, totaling \$.84M, as well as equity provided by Applicant's investors. Applicant expects to close on the NYCIDA transaction as soon as possible following Board approval. The Project is anticipated to be placed in commercial operation date estimated to be in Q1 of 2027.

The construction will consist of civil work and electrical work. The civil construction will consist of excavating the site and bringing the site to appropriate grade. Concrete pads will be poured to hold the electrical equipment on top. Batteries, transformers, switchgears, and various other pieces of equipment will be installed on top of the pads and will be electrically connected. All of this equipment in addition to the solar canopies will be connected to Con Edison's distribution grid. The site will be closed in by screening to match the aesthetic of the neighborhood.

1. Job Creation Schedule for the Applicant

For all responses in the table below, part-time (“PT”) employees are defined as those working between 17.5 and 35 hours per week on average, and full-time (“FT”) employees are defined as those working 35 hours or more per week. Hourly wages in Columns E & F should represent the pay rate and are exclusive of overtime. For salaried employees, divide the annual salary by 1,820 working hours per year to calculate an hourly wage.

A Job Category	B # of NYC jobs retained by Project	C # of jobs to be added in each year at Project Location in first 3 years of operation to be employed by Applicant			D Total # of Jobs at Project Location in first 3 years of operation (Sum of all Columns B and C)	E Average hourly wage for Year 1	F Lowest hourly wage for Year 1	G Average Fringe Benefit for retained jobs	H Average Fringe Benefit for created jobs

FT Employees						\$	\$	\$	\$
PT Employees						\$	\$	\$	\$

3. Of the Total Jobs at Project Location in Column D in Table 1, how many employees are/will be NYC residents?

NineDot currently has a hybrid work policy which requires employees to work at our downtown Brooklyn office at least two days per week. We do not require employees to be NYC residents, so it is difficult to predict how many new hires will live within the five boroughs. Currently the vast majority of our full-time employees are NYC residents.

4. How many employees at the Project Location will be paid below living wage⁴ at Project Start Date (as defined in the Policies and Instructions)?

None.

5. Does the Project currently have, or anticipate having, contract or vendor employees⁵ at the Project Location? Yes No

6. Generally describe all other forms of compensation and benefits that permanent employees will receive (i.e. healthcare, employer contributions for retirement plans, on-the-job training, reimbursement for educational expenses, etc.).

NineDot employees are eligible for employer-provided medical insurance, life insurance, short-term disability insurance, employer contributions to a 401(k) plan, reimbursement for certain training and workshop expenses subject to manager approval, and possible compensation of stock options.

⁴ For information regarding living wage, see Additional Obligations document.

⁵ Contract or vendor employees are independent contractors (i.e. persons who are not “employees”) or are employed by an independent contractor, who provide services at a Project Location.

7. Will Applicant or any of its Affiliates be required to provide health coverage to its employees pursuant to the federal Patient Protection and Affordable Care Act (the "Act")? Yes No

If yes, provide an overview of the applicable requirements under the Act and an explanation of how Applicant plans to comply with such requirements. If no, explain why and provide a FT employee count using the Act "[FTE Employee Calculator](#)".

NineDot employees are eligible for ACA-compliant medical insurance.

8. Is Applicant currently providing paid sick time to employees in accordance with the Earned Sick Time Act (Chapter 8 of Title 20 of the NYC Administrative Code) and otherwise in compliance with such law? Yes No
If yes, provide an explanation of your company's paid and unpaid sick time policy. If No, explain why and provide a table which outlines the number of anticipated employees and hours worked per calendar year.⁶

Full-time employees are eligible to receive up to seven (7) paid sick days each year. If the employees will be out of work due to illness, they must call in and notify their supervisor as early as possible, but at least by the start of the workday. If the employees call in sick for three (3) or more consecutive days, they may be required to provide their supervisor with a doctor's note on the day they return to work. While sick days are intended to cover only the employee's own illnesses, sick days may be used to care for a family member's (including civil union partners') illness as well.

9. Will the Project use an apprenticeship program approved by the New York State Department of Labor? Yes No

The Project will use an apprenticeship program approved by the federal Department of Labor, as part of a requirement to receive additional Investment Tax Credits under the Inflation Reduction Act.

I understand the following: that Applicant and Principals will be subject to a background check and actual or proposed subtenants may be subject to a background check, and if such background check performed by the Agency with respect to Applicant or any Affiliates reveals negative information, Applicant consents to any actions that the Agency or NYCEDC may take to investigate and verify such information; that the Agency may be required under SEQRA to make a determination as to the Project's environmental impact and that in the event the Agency determines that the Project will have an environmental impact, Applicant will be required to prepare, at its own expense, an environmental impact statement; that the decision of the Board to approve or to reject the request made in the Application Materials is a discretionary decision; that no Bonds may be issued (if Bonds are being requested) unless such Bonds are approved by the Mayor of the City; that under the New York State Freedom of Information Law ("FOIL"), the Agency may be required to disclose the Application Materials and the information contained therein (see the Disclosure Policy section of the Policies and Instructions document provided to Applicant and signed by Applicant on or about the date hereof (the "Policies and Instructions")); and that Applicant shall be entirely responsible and liable for the fees referred to in these Application Materials.

I further understand and agree as follows:

That notwithstanding submission of this Application, the Agency shall be under no obligation to present Applicant's proposed Project to the Board for approval. If the Agency presents Applicant's proposed Project to the Board for approval, the Agency does not guaranty that such approval will be obtained. If upon presenting Applicant's proposed Project to the Board for approval the Agency obtains such approval, such approval shall not constitute a guaranty from the Agency to Applicant that the Project transaction will close.

That preparation of this Application and any other actions taken in connection with the proposed Project shall be entirely at Applicant's sole cost and expense. Under all circumstances, the Application Fee is non-refundable, including but not limited to the circumstance where the Agency decides, in its sole discretion, to not present Applicant's proposed project to the Board for Approval.

That each of Applicant and each of its Affiliates (collectively, the "Indemnitors") hereby releases the Agency and NYCEDC and their respective directors, officers, employees and agents (collectively, the "Indemnitees") from and against any and all claims that any Indemnitor has or could assert and which arise out of, or are related to, any Application Materials, any actions taken in connection therewith or any other actions taken in connection with the proposed Project (collectively, the "Actions"). Each Indemnitor hereby indemnifies and holds harmless each of the Indemnitees from and against any and all claims and damages brought or asserted by third parties, including reasonable attorneys' fees, arising from or in connection with the Actions. As referred to herein, "third parties" shall include, but shall not be limited to, Affiliates.

That in the event the Agency discloses the Application Materials in response to a request made pursuant to FOIL, Applicant hereby authorizes the Agency to make such disclosure and hereby releases the Agency from any claim or action that Applicant may have or might bring against the Agency, their directors, officers, agents, employees and attorneys, by reason of such disclosure; and that Applicant agrees to defend, indemnify and hold the Agency and the NYCEDC and their respective directors, officers, agents, employees and attorneys harmless (including without limitation for the cost of reasonable attorneys' fees) against claims arising out of such disclosure as such claims may be made by any party including Applicant, Affiliate, Owner or Principal, or by the officers, directors, employees and agents thereof.

That capitalized terms used but not defined in this Application have the respective meanings specified in the Policies and Instructions.

I acknowledge and agree that the Agency reserves its right in its sole and absolute discretion to request additional information, waive any requirements set forth herein, and/or amend the form of this Application, to the full extent permitted by applicable law.
