

INTERNATIONAL LANDING PAD NETWORK OPERATORS AT A GLANCE

	PLUG AND PLAY	THE CLEAN FIGHT	SOSA	SUPERMOMOS & LIGHTSPEED VENTURES
Description	HQ'd in Silicon Valley with 60+ locations worldwide, Plug and Play is the world's largest innovation platform serving to connect an ecosystem of 95K vetted startups with more than 550 corporate partners through accelerator programs, curated deal flow, and strategic venture investment.	A nonprofit backed by New York State and top philanthropic organizations, focused on accelerating the adoption of market-ready climate solutions by connecting growth-stage companies with customer partners, capital providers, and policymakers who can unlock scale in NY's clean energy ecosystem.	Global innovation platform working with corporations, governments, and cities to identify and implement startup solutions. Since 2014, SOSA has been connecting large organizations with emerging tech through tailored innovation and accelerators programs that help international startups enter and scale in the US market.	Supermomos is NYC's premier platform connecting 35K+ founders, VCs, and operators across technology and business. Lightspeed is a global VC firm backing 500+ companies. Together, they help international AI companies convert NYC market access into customers, capital, and growth.
