| Organization Description | Chloe Capital is movement-driven venture capital firm investing with a gender and diversity lens in climate, health, workforce, and education innovation. We partner with public and private organizations to accelerate equitable economic growth through investment, education, and inclusive ecosystem building. | Company Ventures is an NYC-based, seed-stage venture firm investing in founders building B2B SaaS, digital health, and fintech companies, grounded in the belief that the best companies are built in good company. | Newlab is a global venture platform for critical technology startups that will reshape our global economy. We lower the barriers for startups to commercialize faster. | Visible Hands is a venture capital firm that holistically supports early-stage, underrepresented founders in building high-growth startups. |
